Pages: 2

Reg No.: \_\_\_\_\_

Name: \_\_\_\_\_

APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY

Seventh Semester B.Tech Degree (S, FE) Examination May 2024 (2019 Scheme)

Course Code: MRT401

Course Name: ADVANCED AUTOMATION SYSTEMS

Max. Marks: 100

Duration: 3 Hours

**PART A**

*Answer all questions, each carries 3 marks.*

Marks

- |    |   |     |
|----|---|-----|
| 1  | What are the limitations and capabilities of a manufacturing plant?                           | (3) |
| 2  | List out the ten strategies of automation systems.  | (3) |
| 3  | Differentiate between continuous and discrete control systems                                 | (3) |
| 4  | Explain how safety monitoring is done in manufacturing systems                                | (3) |
| 5  | Classify FMS workstations and give its features   | (3) |
| 6  | Describe the objectives of material handling systems  | (3) |
| 7  | Differentiate between contact and non-contact inspection techniques with the help of examples | (3) |
| 8  | List down the advantages of cellular manufacturing.   | (3) |
| 9  | Explain the material handling system  | (3) |
| 10 | What are the applications of machine vision?  | (3) |

**PART B**

*Answer any one full question from each module, each carries 14 marks.*

**Module I**

- |    |   |     |
|----|---|-----|
| 11 | a) Discuss the factors that are determining how the products are being manufactured | (9) |
|    | b) Explain about automation migration strategy.                                     | (5) |

**OR**

- |    |   |      |
|----|---|------|
| 12 | a) Explain in detail about the ten strategies of automation systems | (10) |
|    | b) Write a short note on manual labor in the production system      | (4)  |

**Module II**

- |    |   |      |
|----|---|------|
| 13 | a) Explain why advanced automation functions are implemented in manufacturing systems | (4)  |
|    | b) Explain in detail about the elements of an automated system                        | (10) |

**OR**

- 14 a) Differentiate between different modes of control systems with the help of diagrams (6)  
b) Write a short note on error detection and recovery in an automated system (8)

**Module III**

- 15 a) Define learning curves. Explain its importance in manufacturing systems (6)  
b) Briefly explain classification of manufacturing systems (8)

**OR**

- 16 a) What are the components of manufacturing systems (10)  
b) Explain the role of human resources in manufacturing systems. (4)

**Module IV**

- 17 a) Define CMM (4)  
b) Describe about six types of mechanical structure of CMM. (10)

**OR**

- 18 a) List any four CMM softwares (4)  
b) Explain group technology. List the application of group technology (10)

**Module V**

- 19 a) Define Flexible manufacturing system (4)  
b) Describe about the types of flexible manufacturing systems and mentioned its features (10)

**OR**

- 20 a) Explain the importance of machine vision in manufacturing (4)  
b) Describe about image acquisition and digitalization, image processing and analysis and interpretation (10)
